Semicolons

Semicolons are another way of adding detail to a sentence. They can be used instead of a connective, bringing two sentences together to make an extended sentence.

The man looked outside and sighed; it had been raining all day.
The two clauses need to be linked, they must be about the same subject. For instance -
Danny got in the car; he didn't like broccoli.

This is not an effective use of a semicolon as the two clauses are unrelated.
Where does the semicolon go?

Mark fell to his feet. He was exhausted.
Curtis fell into the nettles. The pain was terrible.

Flis had been working all night the project was due in tomorrow
Sarah studied the creature it studied her in return

Finish these sentences:
Michael looked up and grimaced
Semester turned towards the dog
Uncle Tom was furious
Eden hesped the spinach onto her plate
The referee blew his whistle
The car sped into the corner
The asters looked out towards the lake
The crowd huddled around the small boy
The ship crashed into the towering waves

Write a paragraph based on one of the sentences above. Your paragraph should have at least two semicolons.

- John opened the drawer it was empty.

Have your child make puzzles with the rules and some examples, encourage reading and creative writing, and let your child take charge of writing lists. An independent clause makes sense on its own, as if it were a stand-alone sentence. Here are some examples: I will buy these at the supermarket: bread, fruit, vegetables and milk. The teacher announced, "The test is tomorrow!" A semicolon looks like a dot on top of a comma (;). The use of colon and semicolons at clause boundaries is taught with worksheets and exercises where kids insert punctuation correctly into a sentence. They create a break in a sentence that is longer than a comma, but not as final as a period. It is used between two independent clauses which are related. You can even ask teachers for suggested resources for your child to get that extra practice to be well-prepared. saossep saossep sa arap sosruocer ed seujÀteagus a otreba erpnes uoise e sotnussa ed eir©Às amu arap sosruocer oirC !enil-no sedadivita e sosruocer moc ,aditrevid ©A sam ,atiefrep ©À acit;Arp .2SK .2SK tuohquorht yllaudarg sneppah snolocimes DNA snoloc tuoba gnihcaeT well?
